GREETINGS

"Bringing the World Together through Dining Culture."

WDI Group has its corporate philosophy and mission to take on the role of evangelist to spread the joy of "Dining Culture" created from the culinary ingredients, environment, community, history, and culture of various countries and regions, by importing and exporting restaurant brands.

Starting from its first restaurant in 1972, we have steadily grown into over 28 restaurant brands in 6 countries, for approximately 160 individual restaurants.

The dining culture we discover and introduce is unique, providing new dining experiences to guests all over the globe, but at the same time we strive to ensure that the teammates who work at our restaurants take pride in their work. The motivation for this is that their pride will directly influence the quality of our food and service. We must first love the restaurant in which we work. Then, we must care for the teammates with whom we work. This continued tradition is the cornerstone of our long-standing multi-brand strategy, and the reason for the trust we have gained from our guests.

On our 50th anniversary of the restaurant business, WDI GROUP has formulated an objective principle toward sustainable business. Undeterred by the fact that the values and lifestyle choices concerning "food," global environment, and social issues are changing at a breakneck pace, our determination and pride will continue to spread beyond our borders and connect to sustainable activities.

We pursue to be someone who can promise the best dining experience to those who truly cherish to savor their meal. WDI Group will carry on to create "Tables where happiness meets."
